VOLUME 28 NO. 1–3 SPECIAL ISSUE

GEOCHEMICAL EXPLORATION 1985, Part I

Proceedings of the 11th International Geochemical Exploration Symposium held at the Metro Toronto Convention Centre, Toronto, Canada, from April 28 to May 2, 1985

Edited by

R.G. GARRETT

Geological Survey of Canada, 601 Booth St., Ottawa, Ont. K1A 0E8, Canada)

CONTENTS

Author index viii
Foreword ix
Committees of the 11th IGES xi

Opening address
A historical perspective of exploration geochemistry in Canada — the first 30 years
J.J. Brummer (Toronto, Ont., Canada), C.F. Gleeson (Iroquois, Ont., Canada) and J.A. Hansuld (Toronto, Ont., Canada) 1

Lithogeochemical studies
Distribution of gold, arsenic, antimony and tungsten around the Dest-Or orebody, Noranda District, Abitibi, Quebec
A. Beaudoin, G. Perrault (Montréal, Qué., Canada) and M. Bouchard (Rouyn, Qué., Canada) 41
Near-surface lithogeochemical halo as an aid to discovery of deeply buried unconformity-type uranium deposits, Athabasca Basin, Canada
L.A. Clark (Saskatoon, Sask., Canada) 71
Pyrite of distinctive isotopic composition from the Hemlo deposit: A potential tool to identify this type of gold mineralization in Archean terrain
K. Hattori and E.M. Cameron (Ottawa, Ont., Canada 85
A lithogeochemical approach to stratigraphical problems at the Millstream potash deposit, New Brunswick, Canada
S.J. Hoffman (Vancouver, B.C., Canada), K.S. Crosby (Sussex, N.B., Canada) and J.A. Irvine (Calgary, Alta., Canada) 103
Host-rock lithogeochemistry applicable to exploration in the Hambaeg syncline (Hambaeg basin, Korea
K.J. Moon (Seoul, Korea) 119
Lithogeochemical data from the east Amisk area of the Flin Flon-Snow Lake volcanic belt: Implications for mineral exploration
G.R. Parslow (Regina, Sask., Canada) 133
Lithogeochemical exploration for polymetallic Sn-Cu-Ag-Au-Pb-Zn vein mineralization at North Mammoth Prospect, northeast Victoria, Australia
C.S. Rugless (Kensington, N.S.W., Australia) and G.S. Teale (Adelaide, S.A., Australia) 149

Geochemical alteration associated with the Selbaie copper-zinc-silver deposit
J.B. Whyte (Toronto, Ont., Canada) and I. Nichol (Kingston, Ont., Canada) 165

Overburden and soil geochemical studies in non-glaciated terrains
"Lag" — A geochemical sampling medium for arid regions
R.N. Carver (Preston, Vic., Australia), L.M. Chenoweth (Belmont, W.A., Australia), R.H. Mazzucchelli (Preston, Vic., Australia), C.J. Oates (Kalgoorlie, W.A., Australia) and T.W. Robbins (Belmont, W.A., Australia) 183
Electrogeochemical patterns in surface soils — Detection of blind mineralization beneath exotic cover, Thalanga, Queensland, Australia
G.J.S. Govett and P.R. Atherden (Kensington, N.S.W., Australia) 201
Relationship between Sn mineralization and geochemical anomalies in non-residual overburden at Tebrong area, Belitung, Indonesia
S. Johari (Ipoh, Malaysia) 219
Dispersion patterns of carbonyl sulphide above mineral deposits
B.W. Oakes and M. Hale (London, Great Britain) 235
Dispersion into pisolitic laterite from the Greenbushes mineralized Sn-Ta pegmatite system, Western Australia
R.E. Smith, J.L. Perdrix (Wembley, W.A., Australia) and J.M. Davis (Greenbushes, W.A., Australia) 251

Overburden and soil geochemical studies in glaciated terrains
Quaternary stratigraphy and geochemistry at the Owl Creek Gold Mine, Timmins, Ontario, Canada
D.J. Bird and W.B. Coker (Toronto, Ont., Canada) 267
Dispersion of niobium and phosphorus in soil overlying the Qaqarssuk Carbonatite Complex, southern West Greenland
H. Kunzendorf (Roskilde, Denmark) and K. Secher (Copenhagen, Denmark) 285
Till sampling in the Casa-Berardi gold area, Quebec: A case history in orientation and discovery
J.A. Sauerbrei, E.F. Patterson (Copper Cliff, Ont., Canada) and S.A. Averill (Nepean, Ont., Canada) 297
Distribution and dispersion of gold in glacial till associated with gold mineralization in the Canadian shield
G.S. Shelp (Nepean, Ont., Canada) and I. Nichol (Kingston, Ont., Canada) 315
Some conceptual models for geochemistry in areas of preglacial deep weathering
R.E. Smith (Wembley, W.A., Australia) 337
Overburden geochemistry related to W-Cu-Mo mineralization at Sisson Brook, New Brunswick, Canada: An example of short- and long-distance glacial dispersal
R.J. Snow and W.B. Coker (Toronto, Ont., Canada) 353
Västanå-Järksvissle Sn-Li occurrence found by regional grid sampling of heavy-mineral till concentrates in northern central Sweden
Ö. Toverud (Stockholm, Sweden) 369

Stream and lake sediment and water studies
Elimination of hydraulic effects for cassiterite in a Malaysian stream
W.K. Fletcher, P.E. Dousset (Ipoh, Malaysia) and Y. Bin Ismail (Perak, Malaysia) 385
Detailed geochemical studies of a He-U lake anomaly in permafrost, Baker Lake area, N.W.T.
W. Dycke (Ottawa, Ont., Canada) and D. Car (Copper Cliff, Ont., Canada) 409

Geochemical evolution of the Richtersveld area, South Africa, as deduced from regional geochemical maps of stream sediments
C. Frick and S.W. Strauss (Pretoria, South Africa) 431
A geochemical survey of St. Lucia, West Indies
L.W. Maassen and S.L. Bolivar (Los Alamos, N.M., U.S.A.) 451
Lithophile elements and exploration using centre-lake bottom sediments from the East Kemptville area, southern Nova Scotia, Canada
P.J. Rogers (Halifax, N.S., Canada) and R.G. Garrett (Ottawa, Ont., Canada) 467
Geochemical studies in the Indian Pass and Picacho Peak Bureau of Land Management Wilderness Study Areas, Imperial County, southern California
D.B. Smith, B.R. Berger (Denver, Colo., U.S.A.) and R.M. Tosdal (Menlo Park, Calif., U.S.A.) 479
